Each school review generates a number of key improvement strategies to inform continuous improvement in all state schools.

The next steps are...

- ➔ Strengthen staff member understanding and use of the identified whole-school pedagogical approaches and practices to enhance teaching and learning.
- ➔ Collaboratively review and implement a collegial engagement framework to formalise observation and feedback processes for all staff members to work with and learn from each other.
- ➔ Deepen staff member knowledge and understanding of the Australian Curriculum, including the general capabilities and cross-curriculum priorities, to promote consistent curriculum delivery across the school.
- ➔ Develop the capability of staff members to engage all students as assessment literate learners through the use of goal setting, feedback, learning intentions and success criteria.
- ➔ Share the recently finalised inclusion policy with all members of the school community to develop a shared understanding of the vision for inclusion.
